

FINROCKS

Tech Answers To Business Questions

Tech Answers To Business Questions

We help you to plan, structure and launch your innovation project by developing fast and reliable solutions from minimum viable products (MVPs) to scalable high-end products.

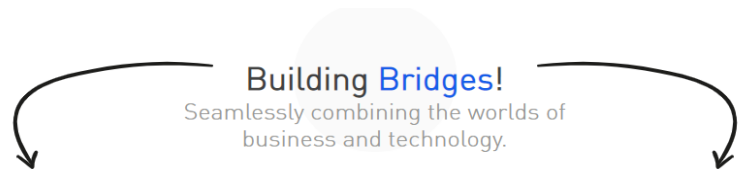

Others talk about your innovation project, we realise it!

We combine the world of developing, designing and business with proprietary tools and proven expertise - making software development easy and transparent. Let's get in touch and discuss your innovative ideas!

Your full-service, fast, reliable one-stop-shop innovation project powerhouse.

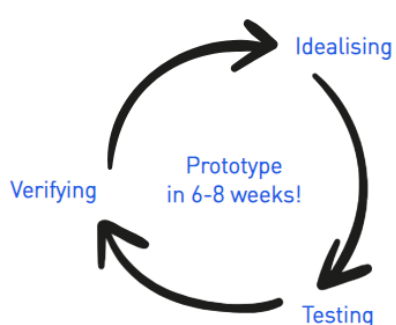

10 + Corporate Projects supported	+ 70.000.000 \$ raised in funding rounds	over 2.000.000 happy customers engaged
--------------------------------------	---	---

Technology
We help you make confident technology decisions and ensure your IT organization is agile, effective and equipped to cut through the buzz of the latest trends to create enduring and lasting results. We have a dedicated team for mobile and web development to align business objectives with user needs.

Business
Nowadays business digitalization and transformation is important but can be very difficult, especially when companies are not able to identify the suitable technology resources. We at Finrocks apply leading design thinking approaches and Startups trends and help to remove the gap between business administration and technology development.

Rapid Prototyping!

Your prototype in 6-8 weeks.

We support you to plan, execute and optimize your innovation project. Everything starts with a prototype. We provide grade A quality, combined with the speed of light (almost). We guarantee to build high quality prototypes within 6-8 weeks.

Digitization is a buzzword and unfortunately many people talk about it without being experts. After almost 4 years of building up a leading European FinTech startup, that is listed at the Frankfurt Stock Exchange, we defined the mission to build a sustainable **bridge between the two worlds of business and innovative technology**. We provide tech answers to business questions. Instead of philosophizing about innovation projects, we help our clients to realize them. Together with our **key partner The Retail Performance Group (rpc)** we support companies in turning their initial visions into concrete and sustainable digital products!

We are experienced

 No matter if mobile application, websites or platforms, we know what to do to bring your project to the next level. We support you from conception of an idea to developing a minimum viable product (MVP) to launching, testing and optimizing the project results.

We are fast

 We design, develop and test our code through repeated cycles and in smaller portions at a time. With each iteration, we add, alter and shape features until your fully functional innovation can be delivered to clients.

We are reliable

 With our track record of more than 10 years of experience in the digital space and strong partners backing us, we are the ideal partner for your innovation project.
